FRAMEWORK INTEGRATION

★★★★☆

Full expertise on tools such as Node.js, Git, CMD, Rails and the AWS framework. Also, using UNIX systems taught me how to properly use the Bash shell.

SQL INTEGRATION

★★★★☆

During my internship and second year of university I studied how databases should be managed properly gaining an advanced knowledge in the domain. Also, I learned SQL properly and now I am preparing for Oracle's

EXPERIENCE

SELF EMPLOYED
2013-PRESENT
Software Development, Administration and Web Development for small local businesses and acquaintances who require my technical expertise in any of the categories previously mentioned.

JUNIOR DATABASE ADMINISTRATOR – LOGIKA IT SOLUTIONS
June 2016- August 2016
My summer internship for 2016.Administrated Oracle 11c and 12g databases of our clients. Got a really good expertise in MySQL and Oracle Databases management. Also, worked with Java and Shell scripting to automate maintenance processes and activities.

SOFTWARE DEVELOPER – THE BIRMINGHAM BUSINESS INFORMATION PORTAL
September 2015- November 2016
Part-time job as a Hardware and Software Developer. Around December I became Junior programmer with Arduino hardware and Software. Also, worked on Estimote iBeacons integration.

STUDENT AMBASSADOR – BIRMINGHAM CITY UNIVERSITY
October 2015- PRESENT
Working with the Students Union on Open days and Cooperate events. Usually working as a "Meet and Greet" person, walking students around campus and describing them what university life is.

MARKETING – DIANNA ESTETIQUE
March 2014-PRESENT (remotely)
Created the online presence for this beauty salon. Managed their Facebook Page and designed their website while also promoting in closed circles.

EDUCATION

BSC IN COMPUTER SCIENCE - BIRMINGHAM CITY UNIVERSITY, United Kingdom

Year I - grade: First: **Projects:**

- Software Engineering: Python Framework and Games development
- Networking Essentials: Full working design of a Cisco network.

DBA exam which I will probably take during the summer of this year.

WEB DEVELOPER EXPERTISE ★★★★★

Full stack development experience gained through numerous projects that required me to understand and learn HTML and CSS for the front-end and JavaScript for the back-end.

PROGRAMMING EXPERTISE ★★★★★

In my first year at University I learned Python based on Object Oriented Programming. In the meantime, during numerous Hackathons I also learned how to use all the other programming languages (Java, JavaScript, C++, C# and Ruby) based on this principle.

LINGUISTIC SKILLS

ROMANIAN ★★★★★
US AND UK ENGLISH ★★★★★
FRENCH ★★★☆☆
GERMAN ★★★☆☆
SPANISH ★★☆☆☆

- Web Development: HTML, CSS and JS deployment of a fully working website and ASP.NET integration.

Year II - expected grade: First: Projects:
- *Functional Programming: Review of the Functional Paradigm in Financial Analysis and Data Science*
- *Database Administration: APEX integration over an Oracle Environment.*

VOLUNTEERING/LEADERSHIP

Interact Club Pitesti 2011-2015 - Worked as a member and later on became an Recruitment Officer

Rotaract Club Birmingham 2015 – present First year, as a member, after 3 weeks while I was in "training" period I took the position of secretary and worked until the end of June, making notes of our meetings and events. Second year as a member, I took the position of Vice-president helping our President with duties and events. After, on the following meeting a Social Secretary was needed and as a technology related person, I also took this position, leading to me building the website of our club and administrating our social platforms.

HaCS Treasurer 2015-2017 – While in University, I have joined the Computers Science society, and took a committee position as a Treasurer. I was mostly doing finances, but when events were taking place, I have done the budget, sponsor paperwork and administration.
